

I4MS is launching **two strategic Working Groups (WG)**:  
 WG1: Best Practices and supporting Mechanisms on Digital Transformation.  
 WG2: Upskilling challenges in the manufacturing industry.

These WGs aim to generate a **high-level dialogue** on the relevant challenges and gaps and to identify possible best practices in relation to the topic of the WGs. The WGs will also suggest **policy recommendations** that can inspire the European Commission, national or regional authorities on **new programmes and strategies**.

## Our offer

- **Face-to-face** meetings with **covered expenses**.
- **Be showcased** at the **'I4MS Talks'** webinar series.
- **Connection with the European ecosystem** on digital skills in the manufacturing sector.
- Access to the **brokerage system**.
- Become an **I4MS Contact Point** to enjoy cross-communication actions among I4MS community.
- **Participate** in the I4MS online community.

## Our goals

- + **Connect I4MS stakeholders & community** as well as other relevant actors and initiatives.
- + **Discuss common challenges** on identified gaps affecting the whole ecosystem.
- + Identify, support and exchange **Best Practices**.
- + Set joint strategies to **leverage investments**.
- + Tackle **specific challenges** and draw **policy recommendations**.
- + Ensure the **sustainability** of these WGs at the I4MS community.

## Levels of commitment

**1.** Participation in **all meetings**

**2.** Participation in **some meetings**

**3.** Participation from **time-to-time**
